Our Daughter Was a Kindergarten Dropout!

HOW TO UNDERSTAND AND WORK WITH ALL YOUR STUDENTS

By Jim & DaVonna Smith

Recent research is beginning to show that the intricacies of personality interaction have a profound effect on the performance and productivity of the workplace. The presenters experienced this conflict first hand when their daughter became a “kindergarten dropout”!

Jim & DaVonna will equip participants with the tools they need to manage these traits and eliminate the stress and conflict they may cause with students, parents, and fellow educators.
